

Before everything goes horribly wrong!

We're happy to rescue you when things go wrong but we'd rather not see you knee-deep in water or in danger from gas leaking into your home. We also know you'd rather avoid leakage in the toilet!

At K.R. Plumbing we believe that being prepared helps to avoid damage or unexpected costs when it comes to gas, plumbing and sanitation appliances. We also know that regular maintenance helps to avoid the inconvenience of gas and water appliances breaking down at the wrong time.

You can't mess around with gas. Ignoring problems with plumbing and water supply can also leave your family's safety and health at risk.

With this in mind, we offer our 5-Point Safety Check for your home which includes:

1. Leak testing – for dangerous gas leaks from your hot water system, heaters & gas appliances
2. Checking water temperature – to ensure the system is working efficiently
3. Leaks from pipe works – which could indicate wear and tear
4. Condition of your hot water service - to avoid build-up of mineral deposits inside
5. General leaks from your taps and/or toilet

We offer this service at a special price to our regular customers. Call us today to book your 5-Point Safety Check and enjoy greater peace of mind.

Regular maintenance means you can plan ahead for replacement or repair of your heating, plumbing and sanitation needs. Talk to us about how you can save money and avoid the inconvenience and damage of breakdowns.

K.R Plumbing has been providing service to customers in the South East Suburbs of Melbourne trading for over 5 years. Owner, Ryan Lawlor is a qualified plumber, gasfitter and sanitary plumber and heads up a small, qualified team specialising in Commercial Construction and Home Maintenance plumbing projects. We focus on Green Plumbing Solutions where ever possible.

We create great relationships with our customers, responding promptly to requests for services, listening carefully to customers' needs and providing quality service and products.

The K.R. Plumbing team gets the job done properly with the right skills, no nonsense and genuine respect.

K.R. Plumbing guarantees:

- Prompt response
- Qualified Tradies
- Good value
- Plus when we call, we don't leave our manners at home!

Payment terms:

30% deposit required on commencement of each project with full payment due upon completion.
